WILSON DEVOTES WHOLE TIME TO RAILROAD PROBLEM

MONEY WORTHLESS FORESTER CHARGES; CHANGE DEMANDED

LABOR IS INSISTING NOW ON NEW CONDITION OF AFFAIRS.

Fundamentals Wrong

WASHINGTON, Aug. 5.—"Organized labor has come to the parting of the ways. We have seen the folly of the old strategy of trying to better ourselves by negotiating for merely a higher wage and humane working conditions. Now we are working for fundamental changes," said J. J. Forester, grand president of the Brotherhood of railway and steamship clerks, freight handlers, express and station employes, in an interview here today.

"We have not come to this conclusion lightly. For decades the American worker has given his drab life to the old regime, fighting every inch of the way, and the fight has not been for progress, but merely to keep pace with the exigencies of the hour. We are not theorists. The facts have converted us, as they have converted, I believe, the great majority of Americans. We have all seen the war and listened to the ideals for which it was fought. We gave our lives, our times and our money and gave them gracefully. But what else do we see. The number of millionaires has doubled and the people pay the transportation. Yes, the workers received a wage increase. In fact, the railroads under government control the employees got what seemed fair treatment. But the money was not money. It would not purchase goods. It did not allow the individual a greater partaking of the general things of life."

"And today the laboring man is determined that in a country dedicated to freedom, he shall have freedom. The proposal of the railroad brotherhood and affiliated organizations in the Simms bill provides:

"We wish the railroads to be operated in behalf of the public on a basis of justice to the men who conduct the industry. We want capital out of the railroads. We are insistent that capital shall be treated fairly. We are not revolutionists but constructionists. We say pay capital every dollar earnestly and prudently spent for the public and let the courts decide how much the bill is. It has been suggested that through radical leadership the rank and file has come to congress with threats of selfish retaliation, if our demands are not met. You must know that labor leaders would not be capable of stirring up the country as it has been stirred. We have not proposed strike but have advised patience, but we are not the generals of labor. We are labor's spokesmen. We demand in this 20th century of industry an American commonwealth of democracy in industry."

AMERICAN LEGION TO MEET TONIGHT

The Morgan county post of the American Legion will meet tonight in the rooms of the Albany Board of Commerce at 8:30 o'clock. A number of questions, important to the discharged soldier, sailor and marine, will come up for discussion. All returned service men, honorable discharged, have been invited to attend the meeting tonight and become affiliated with the local unit of the national organization.

Help Asked For Unfortunate Family

The father of the family is very ill and there is dire distress and need for immediate relief. A bed and bedding, table and chairs cooking utensils and something to put in them the Benevolent Society appeal for at once. Will you not phone Albany 72 and advise what you will do for this sorely afflicted family.

ALLIED WARSHIPS TO PRESERVE THE PEACE AS PROVINCE BALLOTS

SCHLESWIG-HOLSTEIN TO VOTE FOR OR AGAINST CONTROL BY GERMANY

(International News Service.)
Paris, August 5.—British and French warships were today ordered to the coast of Schleswig-Holstein to prevent trouble between the Germans and Danes during the plebiscite in that district. Schleswig-Holstein was formerly a Danish province and was seized by Germany 55 years ago.

Upon representations to the Danish government, the peace conference ordered an election to allow the people to say whether or not the ground should be returned to Denmark.

HUNGARIAN NEGOTIATIONS

(International News Service.)
PARIS, Aug. 5.—The peace conference today took definite steps to enter into peace negotiations with Hungary. Although news of the fall of Bela Kun, the red dictator, has not been officially confirmed, the entente delegates sent a memorandum to the new socialist government, which is said to have been set up in Budapest.

HUNDY IS RESPONSIBLE

(International News Service.)
BERLIN, Aug. 5.—Field Marshal Von Hindenburg, chief of staff of the German army, today issued a statement taking the blame for all of the orders issued by Gen. Ludendorff, his own chief of staff during the war.

TO RELEASE PRISONERS

(International News Service.)
PARIS, Aug. 5.—All restrictions preventing Germany from sending Russian war prisoners back to their own country were lifted today by the peace conference.

MISSION TO BUDAPEST

(International News Service.)
PARIS, Aug. 5.—Gen. Bangholtz, of the U. S. army, was today appointed American member of an inter-allied mission which has been ordered to proceed immediately to Budapest. The mission is under orders to disarm the Hungarians and report to the peace conference on the stability of the new socialist government. In the meantime, the blockade against Hungary will be lifted temporarily.

ASKED TO WITHDRAW

(International News Service.)
PARIS, Aug. 5.—Roumanian troops that occupied the suburbs of Budapest were today asked to withdraw by the peace conference.

JAPAN OUTLINES SHANTUNG POLICY

OFFICIAL CONFIRMATION OF ISSUANCE OF STATEMENT AT TOKIO.
(International News Service.)
WASHINGTON, Aug. 5.—The report that the Japanese government has issued a statement to the press at Tokio outlined its Shantung policy, was confirmed at the state department today.

WATSON ADDRESSES SENATE

(International News Service.)
WASHINGTON, Aug. 5.—The treaty of Versailles should not be ratified until Japan either withdraws from Shantung or states in unequivocal terms that she will withdraw, Senator Watson declared in a senate speech this afternoon.

Employers Asked to List Their Jobs

Employees today were requested by the Home Service Section of the Red Cross to list their employment needs with the secretary, City National bank building, and every effort will be made to place discharged service men in desirable positions. Several requests have been made by soldiers and sailors for aid in obtaining positions.

Prince of Wales Leaves for America

(International News Service.)
LONDON, Aug. 5.—The Prince of Wales departed for America today.

Native Beef Sells at 8 to 10 Cents on the Local Market

Another shot at the high cost of living was taken today when M. L. Schulman, well known wholesale produce dealer, announced that native beef today is selling at from 8 to 10 cents a pound wholesale.

"On account of the high price of hides, beef today was selling at from 8 to 10 cents a pound to the butcher," he said. "Hides today were worth 45 cents a pound or about five times what the beef is selling for. The native beef is as good as any obtainable and we should boost our market by using native beef."

LARGE SUM RAISED FOR CELEBRATION

COMMITTEE WILL MEET TO-NIGHT TO COMPLETE ITS FINAL PLANS.

More than \$300 already has been raised by organized labor here for the labor day celebration in September, with reports still to be made by half the crafts, including the cormen, according to tabulations made at a meeting last night. It was reported that strangers have been soliciting funds and unauthorized persons soliciting advertising for the program and the public was warned that no funds should be given to anyone except the following committee: H. D. Ballew, H. K. Laskach, H. H. Houck, Lee Hartung, W. G. Gentry, A. S. Braselton, I. M. Hames, Tom Rainey, Tul Worley, J. G. Hodges, John Babier, Carl Wilkinson, J. C. Murray, E. M. Johns, O. O. Otte.

Among the speakers will be William L. Harrison, Congressman Edward B. Almon and several prominent labor leaders. A prize of \$25 will be given to the lucky man in the parade which will precede the speaking program.

Copies of the program here will be distributed all over North Alabama and it is expected to be one of the largest attended gatherings in the history of organized labor in the state. One hundred dollars has been appropriated for advertising.

The above committee on arrangements will meet tonight to complete final plans for the celebration.

MRS. R. A. WILSON DIES AT GREENVILLE

FORMERLY RESIDED IN ALBANY WHERE SHE WAS GREATLY BELOVED.

News has been received here of the death of Mrs. Elizabeth Julian Wilson at the home of her granddaughter, Mrs. Edgar Green, at Greenville, Ky., the interment taking place there on Sunday. Mrs. Wilson was the wife of Dr. R. A. Wilson, who survives her. Until recently Mr. and Mrs. Wilson resided in Albany where their friends are numbered only by their acquaintances.

The deceased was 81 years of age. Her husband and the following children survive: Mrs. L. S. Robinson, of Albany; Mrs. Emma Wilson, Skidmore, who was with her mother at the time of her death; Rena Wilson, of Albany; Mrs. R. M. Yields, Mrs. T. S. Atkinson, Mrs. H. S. Atkinson, and M. W. Wilson, all of Birmingham.

In their early married life and throughout their lives, Mr. and Mrs. Wilson were active in the work of the Methodist Episcopal church, in which body Dr. Wilson was a pastor for many years.

McMillan Withdraws From Police Race

Claud McMillan has withdrawn from the race for Albany Chief of Police and desires to express his appreciation to the friends, who have so faithfully stood by him. He has been restored to his former place at the L. & N. shops after a service of 18 years and this changed his plans. Had he been placed at the head of the police department he would have made a record satisfactory to his friends, and with credit to himself.

L & N WORKERS WALKING OUT

The two thousand men employed in the local Louisville & Nashville shops began walking out at 2:30 o'clock this afternoon and it is claimed that all workers at the big plant will be out by night.

The men came out in a steady stream from early afternoon, a large crowd of men standing in front of the gate and greeting the others as they reached the street. It is stated that orders have been received from labor leaders authorizing the walk-out.

FREIGHT TRAFFIC AT MONTGOMERY FEELS EFFECT OF STRIKE

PERISHABLE PRODUCTS NOT MOVING BECAUSE INSPECTORS ARE OUT.

Situation is Serious

RAILROAD BROTHERHOODS DEMAND NATIONALIZATION OF TRANSPORTATION SYSTEM.

(International News Service.)
MONTGOMERY, Aug. 5.—All freight trains running out of Montgomery are stopped today owing to the strike of railroad shopmen. It was learned this morning that only one or two perishable products trains left Monday. Assistant Supt. Stark of the L. & N. stated that he was obliged under the U. S. law to inspect passenger coaches and all other equipment of trains before they went out. Car inspectors are included in the strike.

(International News Service.)
WASHINGTON, Aug. 5.—President Wilson today concentrated his entire attention on the threatened strike of railway men and the high cost of living problem, receiving no visitors at all, it was announced at the White House. Even the peace treaty and the discussions of the league of nations had to take second place before the vital domestic problem. The report of the special cabinet committee will be placed in the president's hands later in the day by Attorney General A. Mitchell Palmer. Later the president will confer with Julius Barnes, head of the U. S. Grain Corporation, on steps to be taken to cut the cost of food stuffs.

Whether President Wilson will go before congress with a special message depends largely on the recommendations made by the cabinet committee.

(International News Service.)
CHICAGO, Aug. 5.—Representatives of the grand lodges of the railway department of the American Federation of Labor today visited railroad shops in and around Chicago in an effort to persuade the shopmen now out on strike to return to their places. It is hoped that the men will return to work until the official strike call ballots, which are being distributed throughout the whole country, has been completed.

LEE ADVISES PATIENCE

(International News Service.)
CLEVELAND, Ohio, Aug. 5.—"If the government was able to guarantee war profits, it can guarantee just prices to the consumer." This was the declaration here of William G. Lee, president of the Brotherhood of Railway Trainmen, upon his return from Washington where with other heads of the Big Four he made demands that the cost of living be cut down. He declared: "If action isn't taken immediately, there is going to be greivous suffering." Mr. Lee advised patience on the part of union men, but declared there are times when patience ceases to be a virtue.

MEN RETURN TO WORK

(International News Service.)
MACON, Ga., Aug. 5.—100 Georgia Southern and Florida shopmen at Macon and Valdosta returned to work today. They agreed at a meeting last night to do this, pending an immediate investigation of the charges that caused the walk-out. The men agreed that they would not join a nationwide strike for better wages.

SENATE MAY PROBE

(International News Service.)
WASHINGTON, Aug. 5.—An independent investigation of railroad wages by the senate is being responding to President Wilson's request for a railroad wage adjustment board, was urged today by Senator Cummins of Iowa.

CLERKS PRESENT CLAIMS

(International News Service.)
WASHINGTON, Aug. 5.—The wage demands of the 450,000 railway clerks, freight handlers and express and station employes, on the railroads under federal control were placed before Railways Director Fines today by J. J. Forester, grand president of the brotherhood of these employes.

MEMPHIS EDITOR HAS BECOME A HERO

Edward T. Leech, editor of the Memphis Press, a newspaper that is prone to frank statements and a bit of sensationalism, has been converted into a hero by receiving a ten day jail sentence for contempt of court. The "contempt" resulted from an editorial published more than a year ago in connection with a political campaign. The article called no names, and it was claimed referred directly to no individual or group, but it was so stinging in its wording that a dignified and learned jurist took personal affront and hailed the obnoxious writer into his august presence and invited him to become the county's guest for a period. Editor Leech, however, was equal to the occasion, accepted the bit of judicial tyranny good naturedly, and capitalized the incident. He was escorted to prison in an automobile, which led a long procession of business men, was ushered into a cell furnished with a cot, covered with snowy linen, and was given the assurance that a liberal supply of provisions, furnished him by friends would be at his beck and call. Furthermore, orators addressed the crowd and urged the inauguration of a campaign for legislation that would insure the freedom of the press. It was a red letter day in the editor's life, and there is but little doubt but that the judge who sentenced him was the one really in contempt with the Memphis public. Tennesseans, along with other Americans, are determined that the right of free speech shall remain unbridled, and they should be equally as determined that judges should be as much subject to honest criticism as are other fallible mortals.

BIGGEST BOOSTER TRIP IS BEING ARRANGED

Announcement is made in today's Daily, on another page, of the itinerary of the Albany "boosters," who will visit thirty-five communities for the purpose of cultivating closer trade and social relations with our neighbors. These trips were inaugurated prior to the war, were suspended during that titanic struggle, and are to be resumed now that peace has been officially declared. It is doubtful if any enterprise ever undertaken by Albany business men and the Board of Commerce has proved so profitable as these annual pilgrimages. They serve a three-fold purpose—to advertise the city as one of most progressive spirit; to cement the cordial relations between this city and many North Alabama towns and communities, and to draw trade here by pointing out the advantages that Albany offers, both as a buying and selling market. Many misunderstandings have been cleared up, many doubts removed and much information disseminated during these visits. The natural result has been that Albany has profited vastly, and has also risen in importance and esteem as a city that "does things."

The trip this year should surpass any previously given, and in order that this may be accomplished much hard work must be done. The "get-together" spirit must prevail, and there must be the closest co-operation on the part of those behind the drive. These things can be counted on.

THE TRIBUNE EXPLAINS IT ALL

(Nashville Tennessean.)
So now the Chicago Tribune, friend of the colored race, expounder of theories and abuser of the South, is actually "admitting frankly" that certain of its remedies, so graciously prescribed for application south of the Mason and Dixon line, won't do at all—even in Chicago.

There has been an attempt to give him a fair representation in public affairs in Chicago, says the Tribune in speaking of the negro, and not to resent his presence there. But—"If political equality had meant the election of negro mayors, judges and a majority of negroes in the city council"—why, "we admit frankly the whites would not have tolerated it."

Mirabile dictu, but the Tribune says it: "We do not believe that the whites

of Chicago would be any different from the whites of the South in this respect."

So, equality as applied to the negro and politics is a misnomer. Equality doesn't mean equality at all. It is not, as the Standard Dictionary defines it, the state or equality of being equal as in amount, value or rank; the state of being of the same quality or degree.

Why didn't the Tribune long ago say what it meant instead of referring to the "equality" of the races.

And why, when Southern negroes were being lured to the city by promises of high wages and were being promised "equality" in all things, oh, why did not the Tribune at that time warn the negroes that the whites of Chicago "would not be any different from the whites of the South" if they should attempt to assert their "equality," or seek to rise politically as any "equal" has a right to do?

The Tribune has undergone a wonderful transformation so far as its view of the race problem is concerned. For example:

"The negro has a right to service anywhere the public generally is admitted. He does not get it. Wisely he does not ask for it. There has been an illegal, non-legal or extra legal adjustment founded upon common sense which has worked in the past, and it will work in the future."

It is delightful to hear the Tribune talk of "adjustments founded upon common sense."

Continuing, the Tribune says: "A writer once summed up the negro question by saying: 'The North has the principles and the South has the negroes.' We are coming to have the negroes, and we want to keep the principles so far as they are applicable."

Mind you, "so far as they are applicable."

A rebellion by the negroes against facts which exist and will persist will not help us to keep them. The Tribune is a little backward about "admitting it frankly," but it really is casting off its pet theories regarding the solution of the negro question and is coming around to the Southern point of view, which is "founded upon common sense." We are glad to see it. We are looking forward to the time when the old bogie of sectionalism shall have been forgotten and when there shall be a perfect understanding between whites and blacks in the North as now exists in the South.

Voice of the People

THE MAN ON THE LINE FAVORS CONSOLIDATION

Editor Albany-Decatur Daily:
As I do not see anything regarding the sanitary and light conditions along the line of our two towns, will say that it occurs to me that one town would be much better. My home is on the line, and anyone wanting to know our light condition should come up on the north end of Sixth avenue, or out on the east end of Walnut street any dark night, and if you want to know the sanitary condition, make a trip along the line where each town expects the other town to look after the garbage.

I am of the opinion that one town would be much better if for no other reason than the dividing line would be lost sight of, and the streets would be lighted, and the garbage wagons would work from one side of town to the other side.

I believe that practically every voter along the line will vote for one town when the vote is taken.

ADDS NAME TO GROWING LIST IN FRIENDSHIP

MRS. CLARLEY GLAD TO BE IDENTIFIED WITH THOUSANDS WHO PRAISE TRUTONA.

FRIENDSHIP, Tenn., Aug. 4.—Mrs. M. L. Clarley is a well known and highly respected Friendship resident and her recent statement praising the merits of Trutona has won a host of friends for the perfect tonic in Friendship.

"I had a catarrhal affection of the head and was bothered with nervousness," Mrs. Clarley said. "I had, of course, tried a great many different medicines but they didn't seem to give me the needed relief."

"I certainly have been well paid for my purchase of Trutona, however. The medicine has not only improved my catarrhal affection but it has also relieved my nervousness. I think Trutona is the greatest medicine I've ever taken and I know it is worthy of recommendation. I'm glad to add my name to thousands of those who have already praised Trutona."

Trutona, the perfect tonic, is now being introduced and explained in Decatur by Decatur Drug Co. and in Albany by Fruit-Dillehay Drug Co.—Advertisement.

JUST IN PASSING

BIG ATTENDANCE URGED

"I hope there is a large attendance at the meeting tonight of the Morgan county post of the American Legion," said T. C. Almon, vice president of the post. "Many questions of vital interest to the returned soldiers, sailors and marines of the county will come up for discussion tonight, including appointment of a committee to look after employment for discharged service men. The Legion is destined to be the greatest factor in future years in building up our great Democracy and it is of paramount importance to the former fighter to become identified with the organization."

TO HAVE GOOD TIME

"We expect a big time at the barbecue August 7 at the home of N. W. Bradley," said Mrs. John H. Peebles. "The 'cue is given under the auspices of the school improvement association of our neighborhood and the proceeds will be devoted to the educational institution. We expect to have an enormous quantity of things to eat handy and all of the visitors will find a very 'substantial' welcome."

MUST QUIT HABIT

"Certain youngsters have gotten into a very bad habit of climbing on top of the grand stand at the ball park," said H. Hames, manager of the Albany-Decatur team. "That habit must be stopped. It is dangerous for the boys, it is inconvenient for the patrons of the park and it damages the property. I hope the warning I have given will be sufficient. Youngsters also are adopting a habit of throwing articles in the stands during games. It is inexcusable and will lead only to trouble for the youths."

Unaccountably Absent Minded

A friend of mine was being married and a host of friends were present during the ceremony, which the minister was performing most impressively. The bridegroom alone was inattentive and seemed unaccountably absent minded, when suddenly he bawled out: "Gee, I forgot to bring along the wedding ring!"—Chicago Tribune.

Masonic Home Superintendent Uses Meadors' Antiseptic in Home For Treating Burns, Cuts, Sores, Etc.

Prof. W. O. Cranor, Superintendent of the Tennessee Widows and Orphans Home, Nashville, Tenn., says: "I have been using Meadors' Antiseptic for cuts, burns, sores, and tonsillitis, and believe it has more real merit than any medicine that I have ever seen. I have nearly two hundred persons under my care at this time, consisting of children and old women. I keep a bottle in the house at all times for emergencies."

Meadors' Antiseptic

relieves quickly and gives quickest results in relieving old sores, which are considered incurable. Meadors' Antiseptic is a formula of an old English physician, and has been a standard old house remedy for nearly one hundred years. It is not a liniment, but a liquid germ killer of strong healing powers. Comes in 50c and \$1.00 bottles at your druggist's. Just ask him for Meadors' Antiseptic.

Freight Traffic at Montgomery Feels Effect of Strike

Addressed to the American public and signed by the engineers, the firemen, the conductors and the American Federation of Labor, a formal statement was issued Monday announcing the proposal which will be carried before Congress Wednesday.

The statement follows: "The incident in telegraphed dispatches from Washington, appearing also, in the speech of Representative Blanton of Texas, that the railroad unions are holding up Congress and the government may as well cease. This appeal is made to the American people direct. It invokes the judgment and common sense of public sentiment, of all the public, which we can exist under the present wages. But we agree with Representative Blanton that this affords but temporary relief. It does not offer a remedy. "Labor's bill, on the whole, provides a remedy and we ask merely that its terms be scrutinized. Our full argument in support of these terms will be represented on Wednesday before the House committee on interstate commerce. In this statement we are sounding the note of our basic principle.

"That this role originates with labor is merely because labor happens to have firm organizations through which it may become articulate. It is not to benefit labor as labor alone; it is to benefit the consuming public, of which labor at present is the audible part. It is labor's bill providing that the public take over the railroads and establish a tri-partite control.

"These represent all the brains, skill and energy that is in the business.

SAYS HALF OF PEOPLE IN ITALY ARE STARVING

CHICAGO, Ill., Aug. 5.—"Half of the people in Italy are starving. They need credit, money and help. Proportionately, Italy has been devastated as much as France," said Charles A. Roberts, an ex-army lieutenant, formerly attached to the American Embassy in Rome, while in Chicago on his way to his home in Portland, Oregon. He asserted that 35,000 of the 50,000 inhabitants of Fiume are Italians and that long before the war Fiume's city government had pleaded with Italy to take over the city.

Buried Treasures in Arizona.

What is believed to be the first clue to the reputed buried treasures of the padres of the Tumacacori mission, built by the Spanish, results high up in the Tumacacori mountains, less than three hours' journey from Tucson, Ariz., has been discovered by Frank Pinkley, custodian of the ruins. It is the gateway to the mission cemetery. From this gateway, it is said, the plans and maps left by the padres start to outline the way to the buried gold and silver.

The Tumacacori mission was built near what are believed to be the ruins of one of the Seven Cities of Cibola. The center region is said to show evidences of rich mineral deposits, which declare those who have inspected the mountains, doubtless led the padres to build their mission there.

40 Winters 40 Summers Since Then Have Rolled Away

Forty winters and forty summers have rolled away since persons who are living and well today first took the prescription for "Number 40 For The Blood." "Number 40" is compounded from ingredients that are set down in the U. S. Dispensary and other authoritative medical books as follows: Employed in diseases of the glandular system, in blood poison, mercurial and lead poisoning, scrofula, rheumatism, catarrh, constipation, liver and stomach diseases. Under its use, sores, ulcers, nodes, tumors and scrofulous swellings that have withstood all other treatment disappear as if by magic. No. 40 is sold by Preuit-Dillehay Drug Co.—Advertisement.

ness. They are entitled to that measure of control which is equal to their ability and their responsibility for operation properties. Then, and then only, will the service primarily be for the public, not primarily for profits, to speculators and inflators of capital. As a means for accomplishing this end, we ask that a lease be granted to a corporation created not for profit, but for public service. We ask that this corporation be controlled in its management by an equal representation of the three fundamental interests. The public, operating managers and wage earners will then guarantee both the integrity of the investment required for the conduct of the industry and that return which induces it by investing, to enter the public service.

"The public consumers and the operating managers and wage earners as producers having joined in that guarantee, will then share equally all earnings in excess of the amounts required to meet the guarantee.

"This is provided by granting to the wage earners and management one-half of the savings which they through their perfected organizations can make and by securing to the public

the other half to be enjoyed by the consumers, either by increasing the means of service without increasing fixed charges or by reducing the cost of the service which the machinery then in existence can render. Thus the cost of transportation is automatically reduced exactly on the proportion as benefits accrue to the producers of transportation. Increase in earning power of producers under this system cannot be reflected in increased costs; it must be balanced by decreased costs.

"The railroads are the key industry of the nation. They affect at once

the price of every necessity. As increased transportation costs are reflected in the increased price of all commodities, so a reduction in those costs must be reflected by reduced prices.

"We say this because of labor's interest as consumer, as part of an overburdened public. This fundamental statement of principle we respectfully submit to the American people."

In Olde Virginia

Where Cigarette Tobacco was born

"...and duelling, too, had become all too frequent a practice. From politics to gossip, no difference of opinion was too slight to lead to the field of honour. One particular affair, which I recall, arose from an argument over the difference between two lots of Virginia tobacco."
—Memoirs of Thomas Fairfax Peyton

What makes Virginia the most popular cigarette tobacco?

THE fragrant, golden Virginia tobacco, that Sir Walter Raleigh and Dr. Samuel Johnson enjoyed in their pipes, is today the world's favorite for cigarettes. For five times as much Virginia is smoked each year as all the Turkish varieties combined.

To enjoy Virginia tobacco at its best, to get the full, sun-ripened flavor out of every puff, don't smoke it mixed with other tobaccos—smoke it straight.

Smoke an all-Virginia cigarette—smoke Piedmont.

The Virginia Cigarette

Piedmont

NOTE—In England, where Virginia tobacco has the preference, a smoker pays as much for his Virginia as for the best Turkish tobacco. Because over there both kinds of tobacco pay the same import duty. But in this country Virginia tobacco costs you less than Turkish tobacco because Virginia is grown in this country and unlike foreign-grown tobaccos carries no import duty.

Flowers grow in the garden to be given away. Everybody feels that they appeal to finer senses than his own, and looks wistfully around in hope that possibly this friend or that may be nobler furnished than he to see and read them.—Emerson.

Haleyville Game Lost by 6 to 2 Score

Haleyville won yesterday's game from Albany-Decatur by a score of 6 to 2 according to an unofficial report received here today. Manager Ott Hames, who is at his home here, said he had made a number of attempts to get in communication with members of the team at Haleyville but had been unsuccessful. No details of the contest have been given.

Danville Goes Over in Howard Drive

GOOD START MADE IN COUNTY FOR ENDOWMENT FUND.

Danville always carries its proportionate part of the burden, and then some. On Sunday it went "over the top" in raising its quota for the endowment fund for Howard College, and it is thought its apportionment was oversubscribed. The pastor of the Baptist church at that place, Rev. B. P. Collier, assisted by W. H. Aycock and C. L. Buck of Albany, launched the campaign which was liberally responded to and it is hoped that Morgan county churches will follow enthusiastically in oversubscribing the fund.

Rev. R. F. Stuckey is county chairman and is doing fine work in raising the endowment for this worthy purpose. Rev. Stuckey is conducting a religious meeting this week at Bethell.

SAYS SHE WOULD HAVE BEEN DEAD

If Sulfero-Sol, the Wonder Medicine, Hadn't Relieved Her of the Horrors of Pellagra, as Well as Other Diseases,

Here was a pitiable case. And she made a remarkable recovery. Mrs. Mattie Boren, of Sallisaw, Okla., suffered with the horrors of pellagra more than two years. The children had it, too. She was also afflicted with kidney and bladder trouble and diseases peculiar to her sex. Now she is well. She attributes her recovery alone to Sulfero-Sol, "The Wonder Medicine," because while she was taking it she took no other. "I would have been in my grave today," she says. "Me and my three children had the pellagra. Doctors said we would never get well. But Sulfero-Sol cured us."

Sulfero-Sol is a medicine of marvelous power, which is even recognized by physicians. It is a natural nerve tonic and blood purifier, relieving not only Pellagra, but also Rheumatism, Eczema, Indigestion and Diarrhoea. Try a bottle and be convinced of its wonderful power. After a few doses you will praise it. Get it at your druggists.

HERE BIRDS FIND SANCTUARY

Area in Delta of Yukon River, Valueless for Other Purposes, Is Now Profitably Employed.

The most important, and by far the largest in extent, of our national "refuges" for the preservation of wild birds is a vast area in the delta of the Yukon river, proclaimed as such by an edict from the White House just ten years ago.

It is an area approximately equal to Massachusetts, and the most valuable feather species concerned are wild geese and wild ducks, which breed there in countless numbers.

There is found the proper home of the "emperor" goose, the "white-fronted" goose, and many species of ducks which are sought as game in other latitudes.

The region is known as "tundra country"—devoid of trees, swampy, with many lakes, and of no possible usefulness for agriculture or any other purpose. If, however, the wildfowl are there safeguarded on their breeding grounds, it will be a permanent source of game and food supply for Alaska and the entire Pacific coast.

In order that this may come to pass, it is necessary that the birds shall be protected during the mating season against the wholesale slaughter which formerly was conducted by pot-hunters and alleged sportsmen from year to year—a method commonly adopted being to drive the helpless creatures into pens built for the purpose, where they were ruthlessly murdered.

LAUGHED AT TIME'S PASSAGE

Blue Delft Saucer, Long Sunk in Ocean, Benefited by Century Immersion in Ocean.

The act of a fishing smack off Eymouth, Berwickshire, England, brought to the top of the sea recently a long dead memory. A blue delft saucer, deeply incrimed with barnacles, lay among the flopping fish in the net, and it bore a picture of one of the old British coasting and sailing vessels, with the words "Eclipse, Ldn. and Edinburgh, Shipping Coy."

Now, the Eclipse was lost at sea 103 years ago. No one survived, no bodies were thrown up, no wreckage definitely identified with the lost schooner was ever washed against known shores.

Yet, over a century later, a china saucer is recovered. Its blue, according to reports, had taken on a wonderfully deep shade, tinged with green, and was very beautiful.

The London and Edinburgh Shipping company bought the relic for about \$50 of our money and gave that sum to the British Red Cross. The saucer was sent to the British museum.

"Imka."

"Imka" is the name by which the Y. M. C. A. is known in Czechoslovakia. For "Imka" is the reasonable pronunciation of those four letters in the language of the mid-European land. The Imka is very popular. When the republic of Czechoslovakia was established, its citizens who had returned from fighting with the allies, urged that the Imka, with its canopies, but service, athletics and recreation, be invited to come with them. The invitation was given and now the Imka has been developed on an army basis with centers in ten towns and is contemplating establishing a center in the famous coal mine region of Teschen, which is the bone of contention between the new republic and the Poles. As this new republic is said to hold the world's record for literacy, only 1 per cent being unable to read or write, the American "Y" secretaries find splendid co-operation in their activities.

Shark Meat Is Tasty.

Shark meat is delicate in flavor and texture, and sharks are plentiful in certain parts of Florida, but the fishermen do not catch them because they are not salable.

The home demonstration agent of Monroe county, Florida, decided last winter on an effort to establish in favor this fish now under the ban. At her request a fisherman caught one, but warned her that no one would eat it. Undismayed, she invited a large company of women to a home economics luncheon, at which was served a fish salad.

When all had tasted the salad she asked for a vote as to how many liked and wanted the recipe. Without exception the women voted their hearty approval, and thus proved to themselves that the prejudice was without foundation.—Cleveland Plain Dealer.

Plea for Dogs.

The first week that Representative Venable of Mississippi was in congress a couple of years ago he made a hundred-and-fifty-word speech about a dog he used to own, and he still is getting letters telling him what a fine speech it was. The speech was a plea for preparedness, in which he pointed out that little dogs always are in hot water, but that mastiffs have only a minimum of difficulties and can enjoy afternoon siestas and such.

Unmolested Heroes.

Among the heroes of the war is the man who uncomplainingly goes without the things to which he has been accustomed in order that he may quietly do his bit. Only a comparatively few of them ever get into the limelight, but in the scheme of patriotism they share honors with those who wear the uniforms and shoulder the muskets.—Berkshire Eagle.

Rushing to the Grave.

Everything hurries in New York, including the undertakers. If the mourners will consent to the vehicle moving at a trot on the way to the cemetery, the charge is about half of that for a walking funeral.—Empire Gazette.

SIMPLE MATTER TO EXPLAIN

As It Happened, However, It Was Rather Embarrassing to One Idle Student.

Professor Gurney was one of the most genial instructors and the most skillful disciplinarians. As a teacher Gurney was always kind and courteous, but nevertheless a terror to drones and evildoers.

For example, take the case of a student who was afterward a distinguished professor in the medical school. We were reading Cicero's Epistles. In the lesson for the day he was describing a scene in court, when it was evident that in the morning before the witnesses came in they had been suborned and instructed what to testify. I will call the student Drake. He had not looked at his lesson, and when called upon began to translate until he came to this passage.

He could make nothing of it, but looked up with a helpless air and said, "I don't think I understand this passage." Gurney bowed, and with the utmost suavity said: "It means, Mr. Drake, that they had learned their lesson before they came in in the morning."

As that was exactly what it did mean, the fellows set up a shout and Drake dropped into his seat.—Harvard Graduate Magazine.

DETERMINED TO ENJOY MEAL

Ten-Year-Old Was Going to Eat in Comfort If It Cost Him His Savings.

The Lane family decided to help out the mother of the family by decreasing the amount of table linen in the weekly washing. Each member who spilled something on the cloth was required to cover it with a piece of money of the exact size of the spot. Twice ten-year-old Fred was compelled to hand in a quarter from his paper money. Then one day he came home from the store with his pocket jingling full of money.

At the very beginning of the meal he dropped a bit of gravy. Soon afterward a piece of tomato followed the gravy. Still he showed no concern. His older sister reminded him of the agreement. "Oh, I guess I'll wait until I'm through," was his calm rejoinder.

Every one was surprised because on other occasions he had showed much concern over his accidents. But when he produced a pocketful of pennies at the close of the meal and announced that he had come prepared to enjoy a meal once again, everyone understood.—Indianapolis News.

Germs Pressed to Death.

The Nebraska State Journal observes one of the most interesting of recent developments in the dairy industry is the announcement that germs may be killed by pressure. This leads to the belief that the old method of pasteurizing milk by heat, which has been found objectionable in some respects, may be supplanted. It is claimed for the pressure system that the delicate ferments, or enzymes in milk are not destroyed, and that no changes are made in the taste or general condition. The pressure is applied by means of a hydraulic pump. It is possible to apply as high a pressure as 150,000 pounds to the square inch. A pressure of 35,000 pounds to the square inch for 15 minutes has been found to kill many bacteria. Higher pressure can be supplied when the germs are extraordinarily stubborn. In general, it is believed that a pressure of 20,000 pounds for 20 minutes will serve every practical purpose. This material is found in a statement recently issued by the American Chemical society. Coming from such a source it will be accepted as authoritative as well as interesting.

Paper Clothing.

Underclothing made of finely crimped or grained paper is now being manufactured in Japan. After the paper has been cut to a pattern, the different parts are sewed together and hemmed, and the places where buttonholes are to be formed are strengthened with calico or linen.

The paper is very strong and at the same time very flexible. After a garment has been worn a few hours it will interfere with the perspiration of the body no more than do garments made of cotton fabric. The paper is not sized, nor is it impermeable. After becoming wet the paper is difficult to tear.

New Warships Are Powerful.

Our latest dreadnaughts—Iowa and Massachusetts—mark a great advance in size and power over any previous warships. Their length will be 834 feet, their breadth 103 feet, and their mean draft will be 33 feet. The motive power will be similar to that of the Mexico, that is to say they will have the electric drive. The maximum speed will be 23 knots and they will have a cruising radius of 8,000 miles. Their displacement will reach the unprecedented figure of 43,200 tons. The armament will consist of 12 16-inch guns and 16 six-inch guns.

America's Store of Radium.

The total production of radium element in the United States up to this year is estimated at 55 grams. It was first produced in 1913, in which year 2.1 grams resulted; in 1918 the product was 13.6 grams. Charles H. Viola, writing in Science, estimates that the carnotite holdings of the Standard Chemical company should produce at least 500 grams radium.

Not What He Meant.

"The paths up this mountain are too steep for even an ass to climb; therefore I did not attempt the ascent" were the words in a lecture which aroused untimely mirth.

JUDGE BRICKELL HAD WRONG CAR

POLICE LOOKING FOR ONE WAS IN, THINKING HAD BEEN STOLEN.

The Cullman Democrat of last week carries the following amusing story at the expense of Judge Robert Brickell who has been holding court at Cullman.

"Quite an interesting little story is going around concerning an automobile ride recently enjoyed by Judge Robert Brickell, who is holding court here this week.

"The story goes like this: A few evenings ago, Judge Brickell grew tired of sitting around the lobby of the Eureka hotel and decided that he would like to take a spin in a car, over some of the county's pikes. He expressed his desire and a traveling man, who was a good friend of the judge, said that his car was just downstairs near the curb and that Judge Brickell was perfectly welcome to take it and go over as much of Cullman county as he liked.

"The judge went down, stepped into a Ford roadster standing on the spot described by his friend and went sailing out to the end of the Corn road, back to town and out several other well known pikes.

"In the mean time, it appears that Forney Fuller, who had stopped in one of the stores on First avenue, came out to get into his car and return home—but it was not there. Nor was he able to find any trace of it. Inquiries were made everywhere and every effort was being made to locate the missing car. All the officers had been notified and Forney and all of the others believed that his car had been "swiped" when a singular thing occurred. The car was seen approaching town at full speed. Upon dashing up to apprehend the culprit, Forney was rendered speechless by the sight of Judge Brickell sitting serenely at the wheel.

serenely at the wheel.

"Divining that the approaching parties desired to speak to him, meanwhile, the judge stopped and there was nothing else to do but to explain that the vehicle in which the judge was enjoying an outing was being frantically sought after by the owner.

"But," explained the judge, "this car belongs to a friend of mine stopping at the Eureka hotel."

"After an investigation was made however, it was found that the wrong car had been taken by the judge, his friend's car still being near the curb.

"Judge Brickell decided, then and there to ride in his own car, exclusively, after the above experience and returned from his home in Huntsville Monday driving his own auto. Upon reaching Cullman the judge made up his mind to profit by Forney's experience and immediately placed his car under lock and key—no parking near the curb for him. He is now carrying an enormous key around in his pocket which fits into a burglar proof lock on the door of the garage containing his own runabout."

Calomel Users! Listen To Me! I Guarantee Dodson's Liver T

Your druggist gives back your money if it doesn't
liven your liver and bowels and straighten
you up without making you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your liver and attacks your bowels and attacks your stomach. Take a dose of nasty calomel and you will feel weak, nauseated tomorrow. Do your work. Take a dose of Dodson's Liver Tonic and you will wake up feeling more biliousness, constipation, headache, coated tongue, sour stomach. Your druggist doesn't find Dodson's Liver Tonic better than horrible calomel. Your money is waiting for you.
